

Feels Like Christmas

Words & music by Ruth Dunfield

Snowflakes are drifting through the air
Children are laughing everywhere
A holiday tree stands in the square
It feels like Christmas is here

Caroling is heard on every street
People make plans with friends they meet
The school choir rings those bells so sweet
It feels like Christmas is here

Chorus:

This time of year is filled with joy
For every little girl and boy
Who dreams of finding presents
Underneath the Christmas tree

St. Nicholas is seen in department stores
An ever green wreath hangs on the door
There's reindeer in yards, snowmen and more
It feels like Christmas is here

Chorus:

This time of year is filled with joy
For every little girl and boy
Who dreams of finding presents
Underneath the Christmas tree

A crisp winter breeze blows through the night
Stars fill the sky with shimmering light
The frost on my window is a beautiful sight
It feels like Christmas is here
It feels like Christmas is here
