

Whale's Lullaby

(Words & Music by Ruth Dunfield)

Oh gentle one you stole my heart - but I'm restless in my soul
I'm watching you fade in the ebb of time - and it's out of my control

All through the years you roamed the seas - and mystified mankind
Your legendary mystery - has kept the myth alive

So carry on my ocean friend
We're doing everything we can
To give you back your life and your home

It used to be your had it all - you didn't have to fear
Your ruled the ocean tirelessly - your destiny seemed clear

But time has taken away from you - your freedom and your pride
And now you struggle to stay alive - there's no place you can hide

So carry on my ocean friend
We're doing everything we can
To give you back your life and your home

Bridge: And with your young you lived in peace
You were willing to accept
The intrusions of a growing world
At a price you didn't expect

So carry on my ocean friend
We're doing everything we can
To give you back your life and your home

Carry on my ocean friend
We're doing everything we can
To give you back your life and your home
To give you back your life and your homeooo.....
